

CIR-181851/2021-Cypermethrin (chalk) (428)-1667

### **Cypermethrin 1.0% chalk**

**( Insecticide )**

It is ready to use household insecticide in the form of chalks containing Cypermethrin 1.0% w/w active ingredient.

#### **Recommendation**

Used to control cockroaches in houses.

#### **Direction of Use**

For Cockroach control draw 2-3 thick parallel lines in areas like around dust bins, drain holes, lofts, cabins etc. which are frequently visited by cockroaches. Preferably draw them during the night time so that the effect is clearly visible in 3 to 4 hours.

#### **Precaution**

1. Keep away from foodstuffs, empty foodstuff containers and animals food.
2. Avoid contact with mouth, eyes and skin.
3. Use hand gloves while drawing the lines.

#### **Symptoms Of Poisoning**

Nervousness, anxiety, tremor, convulsions, skin allergies, sneezing, running nose and irritation may occur.

#### **First Aid**

1. If swallowed, do not induce vomiting or give liquid orally.
2. If clothing and skin are contaminated, remove the clothes and wash the contaminated skin with copious amount of soap and water.
3. If eyes are contaminated, flush with plenty of saline/clean water for about 10 to 15 minutes.
4. If inhaled, remove the patient to fresh air.

#### **Antidote**

No specific antidote is known, Treat symptomatically. Antihistamines may be given to control allergies.

#### **Disposal Of Used Container**

1. Packages shall be broken and buried away from habitation
2. The used packages shall not be outside to prevent their re-use
3. Packages or surplus materials and washings from the machines and containers should be disposed off in safe manner so as to prevent environment and water pollution

#### **Storage Conditions**

1. The package containing the material shall be stored in separate rooms or premises away from the rooms or premises used for storing other articles or shall be kept in separate almirahs under lock and key depending upon the quantity and nature of the material.
2. The rooms or premises meant for storing the insecticide shall be well built, dry, cool, well lit and ventilated and of sufficient dimension to avoid contamination with vapour
